Design With Climate: Bioclimatic Approach to Architectural Regionalism Hardcover - March 21, 1963 by Victor Olgay (Author)

Design With Climate: Bioclimatic Approach to Architectural ...

Victor Olgay (1910-1970) was associate professor in the School of Architecture and Urban Planning at Princeton University. He was a leading researcher on the relationship between architecture, climate, and energy. Design with Climate is a pioneering book in the field and remains an important reference for practitioners, teachers, and students.

About Design with Climate — Design with Climate

Online Library Design With Climate Victor Olgay

First published in 1963, Design with Climate was one of the most pioneering books in the field and remains an important reference for practitioners, teachers, and students, over fifty years later. In this book, Victor Olgay explores the impact of climate on shelter design, identifying four distinct climatic regions and explaining the effect of each on orientation, air movement, site, and materials.

explaining the effect of each on orientation, air movement, site, and materials.

Design with Climate : Victor Olgay : 9780691169736

With their book, *Design with Climate: An Approach to Bioclimatic Regionalism* (1963), Hungarian-born architect Victor Olgay and his twin brother, Aladar, produced a monumental work in climate-responsive architecture. The Olgay brothers have been regarded as largely responsible for formalizing bioclimatic or passive solar design as a discipline within the field of architecture during the 1950s.
