Julie Schaffner - Tufts University

Non-empirical (theoretical) research is an approach that involves the development of theory as opposed to using observation and experimentation. As such, non-empirical research seeks solutions to problems using existing knowledge as its source.

Research - Wikipedia

Development economics increasingly emphasizes research that integrates cutting-edge theory and first-rate empirical work, and Northwestern's development community benefits from interaction with the theory, econometrics, and labor groups within the department, as well as the Mathematical Economics and Decision Sciences,...

Development Economics: Department of Economics ...

Chicago has a rich tradition in empirical research guided by economics and statistical theory. Henry Schultz, a founder of the Econometric Society, did pioneering work on the theory and measurement of consumer demand in the 1920's and 30's.

Areas of Research - Chicago school of economics

Since the onset of the Covid outbreak, the economics profession has been extraordinarily reactive on traditional and social media. This column introduces "Covid Economics, Vetted and Real-Time Papers", a new review from CEPR which will bring together more formal investigations, based on explicit theory and/or empirical evidence, to improve knowledge.

New CEPR 'Review': Covid Economics, Vetted and Real-Time ...

Development economics is a branch of economics which deals with economic aspects of the development process in low income countries. Its focus is not only on methods of promoting
