Maintenance A Business Centered Approach

2. Maintenance lacks a business culture. A maintenance manager can control up to 40% of a company's costs and often has a direct effect on production output. For maintenance to be fully effective then it needs to be a full partner in the business process. The preparation of a maintenance policy and strategy is an excellent start.

Maintenance - A Business Centered Approach

Business Centered Maintenance A major revolution is quietly underway in the world of maintenance. The frenetic pace of the latter part of the 20th century to escape the perceived Y2K trap by replacing traditional CMMS's with expensive integrated business solutions and the constant need to improve equipment uptime at lowest cost is necessitating radical changes in the way in which we practice maintenance.

Business Centered Maintenance | Manufacturing.net
